

For Lane Back

Weak Kidneys, Backache, Rheumatism or Lumbago it is absolutely essential, in order to obtain satisfactory results, that you take a reliable preparation that acts directly on the Kidneys. Many persons trust to luck for a cure. No remedy will be found more satisfactory than

Pineules

Delays are dangerous. There is no more common complaint than Kidney complaint. Nature always gives due warning and failure to heed same may result in Diabetes, Lumbago, Bright's Disease, or some other serious affection of the Kidneys. Pineules are readily and naturally absorbed and assimilated by the stomach, driving out the poison due to disordered conditions of the Kidneys or Bladder. They purify the blood and invigorate the entire system. The first dose will convince you that Pineules will do all we claim for them. Get a bottle TO-DAY.

Pineules are put up in two sizes; \$1.00 and 50 cents. The dollar size contains 4 times as much as the 50 cent size.

CHICAGO CAPITALISTS GET OPTION ON MEXICO MINE FOR \$3,000,000 GOLD

Torreon, Mexico, March 16.—At a meeting of the board of directors of Compania Minera de Naica, which was held at San Pedro, it was decided to give an option to Chicago people on its properties for \$3,000,000 Mexican money. The company was organized several years ago for \$30,000, consisting of 100 shares of \$300 each. According to the price named in the option, these shares will have advanced to \$60,000 each. The market price some time ago was over \$20,000 a share.

The option was given to a man in Chicago, who deposited \$50,000 with the Bank of London and Mexico, which sum is to be forfeited in case the \$60,000 sale is not consummated.

EL RAYO REPORTED TO HAVE 50,000 TONS BLOCKED OUT.

Reports coming from the El Rayo mine, near Santa Barbara, Chihuahua, Mexico, are that the engineer has just finished a thorough examination of the mine and estimates that the actual ore reserves of the property now blocked out will reach 50,000 tons, averaging \$15.70 per ton, a total value of \$785,000.

In this estimate he includes nothing but the visible limits of the ore bodies. There is a total of about five miles of workings in the company's property, and out of this 3,426 feet were driven during the past year. The ore occurs in quartz veins traversing rhyolite in irregular lenses. The pyrite contents run 4 percent and the proportion of gold \$5.15.

RICH STRIKE REPORTED NEAR FLORENCE, ARIZONA.

From Florence, Ariz., comes the report of a new strike of some of the richest gold bearing gold ore that has been discovered in many a year to that vicinity, and has set the entire town of Florence agog.

A ledge of volcanic rock, some 30 feet wide, and said to be several miles in length, bearing gold that assays to an almost incredible figure has been discovered about four miles east of Florence on claims of the Montezuma Mining company, according to report.

Three pieces of ore were assayed, the highest ran \$1056 to the ton and the other two averaged \$500 to the ton.

MASCOT COPPER COMPANY INSTALLS BIG ENGINE.

Bisbee, Ariz., March 16.—The Mascot Copper company, which owns a number of claims in the Doe Cabezas mountains, has installed on its property a 320 horse power distillate engine, said to be the largest one of its kind in the world. Air compressors, fans, grinders, etc., will be run by the motive power developed by this engine.

Over 6,000,000 tons of sulphide ore have been shown up by a system of tunnels in the company's property.

SPEAKS WELL OF COURTLAND.

Courtland, Ariz., March 16.—Frank Alley, mining writer, in writing of this camp, states that "in any event, Courtland will be a city in good order form, within the next six months. Not a killing has ever been recorded in Courtland; not a failure, where the mining proposition was properly probed, has ever been recorded, and it is unequivocally predicted by those best informed in the premises, that Courtland is bound to be one of the most successful camps on the map."

\$3.50 Recipe Cures Weak Men---FREE

Send Name and Address Today --You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weakened man, loss of memory and lame back, brought on by excesses, unnatural drains, or the follies of youth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determined to send a copy of the prescription free of charge, in a plain, ordinary sealed envelope to any man who will write me for it.

This prescription comes from a physician who has made a special study of men and I am convinced it is the surest acting combination for the cure of deficient manhood and vigor failure ever put together.

I think I owe it to my fellow man to send them a copy in confidence so that any man anywhere who is weak and discouraged with repeated failures may stop dragging himself with harmful patent medicines, secure what I believe is the quickest acting, restorative, upbuilding, SPOT TOUCHING remedy ever devised, and so cure himself at home quietly and quickly. Just drop me a line like this: "Dr. A. Robinson, 4045 Luck Building, Detroit, Mich., and I will send you a copy of this splendid recipe in a plain ordinary envelope free of charge. A great many doctors would charge \$3.00 to \$5.00 for merely writing out a prescription like this—but I send it entirely free.

W. C. McCORMICK, G. A.; J. E. MONROE, C. T. A.

This is said to be one of the most important mining transactions that has occurred of late years. Most of the shares are held in Torreon and vicinity, and most of the money will be invested here.

The San Pedro mine is the greatest property in the camp and it has been a big producer for the past six years. It is owned entirely by Mexicans.

The company looks like a well managed one, and that all of the jack taken out so far has assayed from 20 to 30 percent ore.

R. K. Colquitt was in the Shafter district recently, looking for mining claims.

SHAFER DOWN 1680 FEET.

Bisbee, Ariz., March 16.—The Sacramento shaft of the Copper Queen has reached a depth of 1680 feet, while its destination is the 1700 foot level. A drift is being run from the 1600 level to get under the great ore body at the Lowell. When the 1700 foot level will be reached a pump station will be cut, and the Sacramento will become the water shaft, as well as the hoisting shaft, of the Copper Queen, as the Gardner and the Lowell will be drained by the big pump installed in it.

TO INSTALL MILL.

Bisbee, Ariz., March 16.—At a recent meeting of the Heffern Mining company it was decided, in view of the gold ledge encountered at the Bonanza hill, to install a mill and cyaniding plant. At present a shaft, 4x10, is being sunk on the gold ledge. Samples of ore bodies taken from the gold ledge average \$19.95 per ton.

MORE BUILDINGS FOR DEMING, N. M.

Structures Planned for Silver Avenue—Walks Are Constructed.

Deming, N. M., March 16.—The excavation work has been completed on the new courthouse and work on the foundation has commenced. Hard pan was struck at four feet and it took four horses to draw a plow. Sheds have been erected for tools, etc.

Nordhaus & Sons have the foundation completed for their new building on Silver avenue.

M. M. Killen, county commissioner, has received plans for a two story building, to be erected next to his present location on Silver avenue.

A. T. Little is erecting a store building on block from the union station on Silver avenue.

The Deming Ice and Electric company has completed a large addition to its plant.

MacCurry & Oswell are putting in two blocks of concrete sidewalk near the new courthouse.

Attorneys Fielder and Hamilton are spending a few days in Silver City.

The president of the chamber of commerce has called a business meeting, to be held at the Harvey house tonight. A banquet will be given.

The Southern Pacific company has cleared a large tract of land near its present roundhouse. Report has it that shops will be put here at once.

F. C. Peterson has received a carload of wagons.

WASHINGTON MEN BUY FARMS NEAR MONTEREY.

Saloon There Is to Be Closed, It Is Reported—News Notes and Personal Mention.

Monterey, N. M., March 16.—Messrs. Murphy and Bridge, farmers of Washington, have purchased 40 acres of land from the Tularosa Improvement company. They expect to make their home here, and are wealthy farmers and have fine farms in Washington.

Father Migoen has gone to Three Rivers.

I. O. Wetmore has gone to Carrizozo.

The J. W. Prude mercantile company has received a shipment of mohair from the San Andres and is expecting several more big shipments in the near future.

Messrs. Grey, Tipton, Sanders, Cook and Conell have gone to Alamogordo.

Several ranchmen are in from the San Andres and report much good done by the rain.

L. E. Lumley took out a load of trees to be set in the park at the Lomitas ranch.

Watt Gilmore made a business trip to Bent.

The saloon in Monterey is to be closed in the near future.

Miss Madge Bourne is reported much better.

POLICEMAN WANTS TO GET EAGLE FOR ZOO.

Referring to the proposed zoo at Washington park, which The Herald advocated when two deer were presented to the city, policeman C. H. Haynes said: "I wonder if it is not possible to raise money to secure some more animals for the park, in order that we may have a good zoological park."

I have received a letter from a friend at Fort Thomas, Ariz., who says he has an eagle one year old, which measures seven feet from tip to tip, and which he believes the Eagles here might want to buy and make a present to the city."

SOLOMONVILLE NEWS.

Solomonville, Ariz., March 16.—Mrs. C. A. Neese has returned from an extended visit to relatives in the states of Washington and California.

Lorenzo Baraldi has gone to Cananea to play third base on the ball team.

Dr. J. H. Lacy and son are at the Indian Hot Springs for a few days.

A Mexican's house was considerably damaged by fire.

E. M. Seigitz has returned from 131

RUSH IS ON TO MEXICO PLACERS

Dry Pulverizer Is Extracting Good Values in Gold Fields.

"Hundreds of prospectors are flocking to the gold fields of Sonora with the hope of getting a claim in the thousands of acres of placer gold fields in that country," said George W. Ladd, who arrived in the city from the Altar mining district, in Sonora, where he has a rich mining claim.

"Mexico for centuries has been a large producer of silver, and in the coming years will become noted as one of the leading gold producers. Gold hunters of the globe have already begun to delve into her vast stores of mineral wealth in search of the yellow metal, and she is fast coming to the front as a large gold producer."

"The mining agent's office at Altar is crowded to the doors with men anxious to file their claims in the gold lands of Sonora, and it reminds one of the great rush in '49 to California, when the gold fever was on."

Properties Known for Years.

"These rich deposits of placer gold in the Sonora country have been known to the Spaniards for over a century, but on account of lack of water in these parts, which was absolutely necessary in separating the gold from the sands and rock the properties were deemed valueless and were consequently never worked by the old miners."

"In recent years the machine known as the dry placer, has overcome this difficulty, as water is no longer needed, and thus these fields are beginning to attract wide attention among the miners. A number of these machines are in the Altar district at present, and one of these machines that I saw in operation was recovering from \$600 to \$700 a day in gold values."

"There is every reason to believe that this part of Sonora will become the leading gold center of the republic, the march is on and thousands of people will flock to that center in search of the world's most precious wealth."

DEVELOPS GOLD AT NOGAL, N. M.

William Brown Drives Two Tunnels—Encounters Good Ore.

Nogal, N. M., March 16.—William Brown, of Nogal, N. M., is developing his two gold claims, which are located side by side, in the form of a parallelogram, 1500 feet by 1200 feet, on the main route from the Rock Island railroad to the Parsons mines, in the heart of the mineral belt.

"He says he has been steadily working his properties, and has two tunnels, the upper being about 50 feet above the lower one, and is in 145 feet, which gives it a depth of about 200 feet. The mountain is about 400 feet high above the canyon and the veins run down the mountain."

"The vein shows about four and a half feet in width and I found free gold in the rock," said Mr. Brown.

"This was in the upper tunnel, and not having what I considered sufficient depth, I started the lower tunnel. In starting this I found a stringer 18 inches wide, which pans nice free gold, and I drifted on this about 140 feet. Then I continued the main tunnel, to cut the three veins which exist on the side of the hill. At 30 feet, I got the first lead, and am still drifting ahead to cut the next lead."

"I am now concentrating my work on the lower tunnel. I had to run 50 feet before I cut the first lead, and when I cut through it I had eight feet of good ore, and it pans gold on both walls. I am now drifting south on the lead and am in about 132 feet."

"People who have been here to see my find pronounce the ore telluride of gold."

ORE STRIKE IS MADE IN GARDNER SHAFT NEAR GLOBE.

Superior and Boston Mines Will Start Ore Shipments to the El Paso Smelter Soon.

Globe, Ariz., March 16.—An ore strike which may be of vast importance to the Superior and Boston company is reported from the Gardner shaft. It was first encountered in the west drift on the 500 level, where it was considerably leached, but it looked favorable, and a winze was sunk in it. The discovery of a large body of ore in the Gardner shaft will mean much for the Superior and Boston, as in addition to proving an additional valuable asset, it will vindicate the judgment of the management in sinking the expensive Gardner shaft.

The company has temporarily suspended shipments of ore to the Arizona commercial smelter, and is now shipping about 90 tons daily to the Old Dominion smelter. The contract with the Arizona commercial smelter was for 500 tons as a test and a similar arrangement was made with the Old Dominion company. In addition to these shipments, the company will begin shipping ore to the El Paso smelter soon, it being the intention of the company to make a permanent arrangement with the smelter which can make the best offer.

A SWOLLEN JAW

is not pretty nor pleasant. Whether it is caused by neuritis, toothache or accident, Bard's Snow Liniment will reduce the swelling and relieve the pain. The great and sure cure for rheumatism, cuts, burns, bruises, scalds—and all aches and pains.

MASONS TO MEET HERE NEXT WEEK

Many Candidates to Receive Degrees at Scottish Rite Reunion.

Next week will be Scottish Rite week in El Paso. Beginning Monday, the ninth semiannual reunion of the Ancient and Accepted Scottish Rite of Freemasonry of the valley of El Paso, orient of Texas, will meet in the Masonic temple.

The reunion, which is for the purpose of conferring the advanced degrees upon a large class of candidates, will continue until Friday evening, when it will close with a smoker in honor of the newly made 32nd degree Masons.

On Thursday, March 24, the Maundy Thursday ceremony of extinguishing the lights will be performed at 7:45 p. m. in the Masonic hall by the Oasis Chapter, No. 5, Knights of Rose Croix.

This ceremony will be followed by the mystic banquet; both ceremonies being obligatory for all chapters of Rose Croix. The ceremony of relighting the lights will be performed in the Scottish Rite hall the following Sunday at 10 a. m.

A Shrine ceremonial will follow the reunion and will be held on Saturday afternoon and evening of next week.

Home Endorsement

Hundreds of El Paso Citizens Can Tell You All About It.

Home endorsement, the public expression of El Paso people, should be evidence beyond dispute for every El Paso reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterance of strangers residing in faraway places. Read the following:

John Carpenter, 501 North Stanton street, El Paso, Texas, says: "I found Doan's Kidney Pills to be an excellent remedy and I always advise their use to anyone I hear complaining of backache or kidney trouble. While living in Mexico some years ago, I did considerable horseback riding and I believe this affected my kidneys, causing a pain in the small of my back and a difficulty with the kidney secretions. At that time I read of Doan's Kidney Pills and through their use, I was entirely relieved. Since then I have taken Doan's Kidney Pills, procured at Kelly & Pollard's drug store, as occasion has demanded, and they have always proven of benefit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.
